

EUCMOS

European Congress on Molecular Spectroscopy

We would like to invite participants of the **37th European Congress on Molecular Spectroscopy** and the **44th European Meeting on Physical Organic Chemistry**, Wrocław 2025, to submit their papers to a special issue of the *Journal of Molecular Structure*.

This special issue aims to present cutting-edge research in molecular spectroscopy, including molecular structure, dynamics, and interactions; methodological advances and developments; bio-spectroscopy; applications of artificial intelligence, chemometrics, and theory; dielectric spectroscopy; and applied spectroscopy. I would be delighted if you would accept our invitation to develop an article for this issue. The submission deadline is 28 February 2026. You can read the full special issue scope [here](#). Additionally, it's free to publish your paper to publish with standard subscription agreements.

It's also worth noting here that we are planning for a fast publication process for this special issue: the aim is to provide a first decision on articles within 12 days following submission, and the special issue will be published on ScienceDirect. Your article will also be promoted by the journal to ensure our community sees it and cites it! Finally, I think it is important to add that articles published in special issues are often cited more frequently than articles published in regular issues, especially when published in journals like *Journal of Molecular Structure*.

The submission and editorial process are entirely managed via the journal's online system Editorial Manager. Please see below submission instructions:

- Submission link: <https://www.editorialmanager.com/molstruc/default2.aspx>
- Enter your user name and password (first-time users will need to register)
- Please select special issue title "**VSI: EUCMOS2025**" during submission process
- Please follow the step-by-step instructions to submitting your paper
- Submission deadline: **28 February 2026**
- Please follow [Guide for Authors](#) of this journal when preparing your manuscript

I hope you will consider contributing to this special issue. Please do read more about the issue [here](#) and feel free to respond to this email if you are interested in submitting your paper.

Best regards
Prof. Kazimierz Orzechowski
Guest Editor of special issue
of [Journal of Molecular Structure](#)
